AIRCRAFT FLIGHT TRAINING

Pilot In Command

Initial New Hire

Aircraft: BN-2A / BN-2B

Minimum Time Required:

4:00 Hours *

Prerequisites: The candidate before beginning this section must pass Basic Indoctrination, Aircraft Subjects, Crew Resource Management, General Emergency and Dangerous Goods Training successfully.

Objective: The objective of this segment is to train the pilot applicant to satisfactory standards as determined by practical test standards guidelines.

Courseware: Aircraft Flight Manual, Aircraft. Instructional Delivery Method: Discussion and Flight Training.

NOTE: Air Charter Inc. would not conduct training at CPX airport until all of the flight training sessions are completed, and trainees gain the sufficient proficiency before conducting flight operations in CPX airport.

A. Preflight Preparation

1. Visual Inspection
2. Pre-taxi procedures
3. Performance Limitations

B. Surface Operation

1. Cockpit Management
2. Securing cargo
3. Starting
4. Taxi
5. Pre-takeoff Checks

C. Takeoff

1. Normal
2. Crosswind (when conditions exist)
3. Short field
4. Powerplant failure during take off roll or rejected take off
5. Powerplant failure after take off roll
